Recycle Bots Activity: Materials List

Program on Facebook Live on 2/23/21 from 4:30 PM - 5 PM

If you were unable to register for a materials kit you can still participate in our live class. The supplies you will need for this activity are listed below.

Activity description:

During this program, we will guide you through the process of making a Recycle Bot out of the materials listed below and learn about electric circuits in the process!

Supplies needed:

- Small hobby motor
- AA battery holder
- AA battery
- 2 wires (with alligator clips on each end)
- Hot Glue stick (large diameter)
- Recycled materials to make bot – for example cardboard, clean plastic containers, cardboard tubes

Activity:

- Once you have your materials ready, connect with us on our Facebook page, Fort Worth Museum of Science and History, for Facebook Live 2/23/21 from 4:30 PM - 5 PM.
